

Bahari Foods

OUR COMPANY

Operating from our Dar es Salaam modern processing facility since 2005, Bahari Foods processes and exports premium Tanzanian seafood globally. We also import and distribute select fresh and frozen seafood for domestic markets.

We focus on expert handling and the logistical details of safe seafood processing. You simply get fresh, top-quality seafood that cooks beautifully, making it easier to create outstanding dishes consistently.

DELIVERY

EXPERIENCE IN COLD CHAIN MANAGEMENT

📍 The Netherlands

📍 Belgium

📍 Portugal

📍 Kenya

📍 Tanzania

📍 Spain

Our Teams have decades experience in maintaining the cold chain when transporting high-quality seafood at low temperatures to maintain seafood texture and quality.

Whether receiving fresh salmon imports and maintaining +1°C or preparing exports using reefers supporting temperatures -20°.

Local deliveries start at our -20°C cold storage and get placed in Styrofoam boxes, ensuring we deliver freshness from sea to your kitchen.

SALMON

SUPERIOR NORWEGIAN SALMON

Choose from our Whole Salmon flown in fresh from Europe for unmatched quality and flavor. Our sushi grade fillets sourced in recently caught batches or the very popular richly smoked salmon.

Whole Salmon Fresh Guttet

QUALITY AND TRACEABILITY

At Bahari Foods seafood holding and processing plant; which is EU certified as **APP-227** and has been designed to keep our products in a safe and sustainable environment, we use systematic best practice reviews to ensure the highest standards of food safety management. Our food production processes comply with market and regulatory requirements, and we carry out due diligence in documentation.

We also operate rigorous supply chain management, allocating unique codes to all our raw material suppliers and insisting on regular audits and assessments. We hold HACCP certification, verifying our rigorous systematic approaches to risk management.

Our quality management system is based on Good Manufacturing/Handling Practices (GMP/GHP). These measures ensure we meet all building, equipment, facilities, personnel and sanitation requirements – and help us maintain the confidence of our regulators, international trade partners and customers.
